

## FP10MDA - Supply Only

## FP10

1. Prescriber hasn't indicated instalments at daily intervals. Therefore the patient will not be visiting the pharmacy every day i.e. 6 visits in total.

	40ml daily for 7 days	
	Total supply: 280 (two hundred and eighty) ml	

**Packaged Dose (PD) endorsement:** Fees for providing additional packaged doses will be paid according to contractor endorsement. (*PD fees = total number of separately packaged doses supplied minus total number of interactions*) N.B for FP10 prescriptions there will only ever be **one** interaction/'pick-up'.

4. **Packaged Dose (PD) endorsement:** Fees for providing additional packaged doses will be paid according to contractor endorsement. (*PD fees = total number of separately packaged doses supplied minus total number of interactions*) i.e.  $14 - 6 = 8$ .

3. Dispenser endorses the total number of interactions (no. of times the patient has collected their medicine), minus any missed instalments. This is for pharmacy audit purposes only; **please note: NHS Prescription Services do not use this figure to calculate payment.**

**NB:** there have been no changes made to the payment arrangements for other controlled drugs prescribable on an FP10MDA form (e.g. diazepam or buprenorphine). Payment for these drugs remains based on the number of patient interactions or 'pick-ups' from the pharmacy only. No item level fee is applied; nor can the fee for additional packaged doses be claimed.

## FP10MDA - Part Supervised and Part Take-Home Prescription

**1.** Prescriber hasn't indicated instalments at daily intervals. Therefore the patient will be visiting only on the days the pharmacy is open i.e. 10 visits in total.

**2. Interaction endorsement:** Dispensers should endorse the total volume supplied (and initial) for each patient interaction/'pick-up' only. **Note:** it may be helpful to endorse with number of doses supplied every day.

**4. Packaged Dose (PD) endorsement:** Fees for providing additional packaged doses will be paid according to contractor endorsement. (PD fees = total number of separately packaged doses supplied minus total number of interactions) i.e. 20 - 10 = 10 (see note below)

**3.** Dispenser endorses the total number of interactions (no. of times the patient has collected their medicine), minus any missed instalments. This is for pharmacy audit purposes only; **please note: NHS Prescription Services do not use this figure to calculate payment.**

Note: In this example the pharmacist, in line with the change to the Terms of Service, has decided to dispense 20ml for the supervised dose on a Friday and the remaining 5 doses (one take-home dose on Friday and 4 doses over the weekend) as 100ml in a separate package on the 19<sup>th</sup> and 26<sup>th</sup> resulting in a total of 20 separately packaged doses for this form. (2 doses given daily on the 15<sup>th</sup>, 16<sup>th</sup>, 17<sup>th</sup>, 18<sup>th</sup>, 22<sup>nd</sup>, 23<sup>rd</sup>, 24<sup>th</sup>, 25<sup>th</sup> and 2 separate packages given on the 19<sup>th</sup> and 26<sup>th</sup>).

As 10 of these were given directly to the patient during a "pick-up", the number of additional packaged doses supplied is 10.
