**NHS England**

Pharmacy Quality Scheme

This infographic shows data from the June 2018 declarations.

10,809
is the total number (over 90%) of NHS pharmacies in England that took part in the scheme

Patient safety/clinical effectiveness

*10,784
provide support for:
• Taking medicines correctly
• Starting new medicines
• Obtaining urgent supplies

10,556
have 80% of pharmacy professionals (pharmacists and pharmacy technicians) trained to Level 2 Safeguarding

10,539
produced a reflective safety report specific to that pharmacy. Reporting from pharmacy to the National Reporting and Learning System has significantly increased

10,381
pharmacies have reviewed their asthma patients and referred on those at high risk for further review

Patient experience

*10,806
updated their NHS Choices profiles to include information about their opening times, services and facilities

10,420
have uploaded their latest patient survey onto NHS Choices

9,436
are accredited Level 1 Healthy Living Pharmacies providing expert proactive support for healthy living to local communities

10,680
have 80% of patient-facing staff who are Dementia Friends

Digital enablers

*10,799
phamacies are able to send and receive NHSmail. Over 40,000 NHSMail accounts have now been rolled out to support confidential communication of patient information and integrate pharmacy into the NHS primary care team

9,749
increased their use of the Summary Care Record to support clinical care. Over 95% of pharmacies now have access to SCR

*10,807
are enabled to receive and dispense prescriptions via the Electronic Prescription Service

10,654
updated their NHS 111 Directory of Services profile to enable real time referral to community pharmacy to support urgent and self-care

*Gateway criteria required to take part in the scheme. 39 of the 10,809 pharmacies who made a declaration did so stating that they did not meet at least one of the gateway criteria and were not then eligible for payment.
