

Dispensing Factsheet: Exemptions from the prescription charge

This factsheet serves as a guide of the categories of exemption from NHS prescription charges and provides details of the evidence required to prove entitlement to free NHS prescriptions where applicable. A patient's exemption status applies at the time of dispensing.

Please note: Patients are not required to make a signed declaration if the prescription has been confirmed as exempt by the [Real Time Exemption Checking \(RTEC\)](#) system.

Prescription charge exemption category (form v.0522) (EPS code)	Who is exempt?	Evidence of entitlement	How to obtain exemption
A. is 60 years of age or over or is under 16 years of age (unless your date of birth is printed on the form) <i>EPS code 0002</i>	Patients of 60 years of age or over and patients under 16 years of age. Patient requirements

Pharmacy teams are in no way responsible for the accuracy of a patient's declaration; this remains the responsibility of the patient. If a patient is unsure whether they are entitled to free prescriptions, pharmacy staff should advise the patient to pay for their prescription and provide them with an FP57 Refund form with information on how to claim a refund at a later date. Further information for patients can be found at nhsbsa.nhs.uk/check-if-youre-eligible-help.
