

To Whom it may concern,

**SKUs:**

- Caverject® 10 micrograms powder for solution for injection
- Caverject® 20 micrograms powder for solution for injection

We write to inform you that from **February 2025**, Pfizer Limited will commence the supply of Alprostadil, a generic version of Caverject® powder for solution for injection. We will continue to offer both the branded and generic presentations, for a short period of transition, after which the brand will no longer be routinely available.

Pfizer Ltd will be adding the below products to its portfolio. There will be no alterations to the packaging, except for the packaging referring to the generic name Alprostadil, replacing the branded name Caverject.

We recommend you update your ordering systems with the new presentations and codes below:

Product (PREVIOUS)	Pip Code	NHS List Price	Product (NEW)	EAN Code	Pip Code	NHS List Price
