

To Whom it may concern,

SKUs:

- **PROVERA®** (Medroxyprogesterone acetate) tablets – all strengths

We write to inform you that from late March 2025, Pfizer Limited will commence the supply of MEDROXYPROGESTERONE ACETATE, a generic version of PROVERA® Tablets. We will continue to offer both the branded and generic presentations, for a short period of transition, after which the brand will no longer be routinely available. Please note that this only applies to PROVERA tablets and does not apply to DEPO-PROVERA®.

Pfizer Ltd will be adding the below products to its portfolio. There will be no alterations to the packaging, except for the packaging referring to the generic name MEDROXYPROGESTERONE, replacing the branded name PROVERA.

We recommend you update your ordering systems with the new presentations and codes below:

Product (PREVIOUS)	Pip Code	Product (NEW)	EAN Code	Pip Code
PROVERA® 2.5 mg tablets 3 x 10 pack	231-6180	Medroxyprogesterone acetate 2.5 mg tablet 3 x 10 pack	5415062125045	128-2565

Orders: The new product will be distributed in the same way via Alliance ordering systems, please use Pip code(s) in above table.

Pfizer recognises and is committed to a sustainable supply of these ‘Older’ Medicines for UK patients. As part of our ongoing Established Older Medicines strategy, we will review market need and introduce generic alternatives, where appropriate, to our portfolio.

Should you require any further information please contact **Pfizer Customer Service** on **0345 608 8866** or **Freephone 0800 032 7907** or if you have any questions relating to the above debranding, please don’t hesitate to contact me.

Further clinical information if required:

If you are asked any questions on this matter, please refer your customer to Pfizer Medical Information on 01304 61 61 61 (or via e-mail at Medical.Information@pfizer.com).

The SmPC is available on EMC.

Yours faithfully,

Doug Tootell
Commercial Tenders & Contracts Director
