

Important announcement about the Libre 2 sensor.

Dear Sir/Madam,

We are planning to discontinue our Libre 2 sensors.
They will be phased out at the end of August 2025.

The Libre 2 Plus sensor is suitable for anyone currently using the Libre 2 sensor.
It has all the same benefits – including real-time readings on users' smartphones^{1,2}
and optional glucose alarms³ – **plus an extra day of wear time.**

SWITCHING TO THE LIBRE 2 PLUS SENSOR IS EASY!

Conveniently, the Libre 2 Plus sensor works with the current Libre 2 reader and LibreLink app², so it's a smooth transition without having to change anything else.

Encourage your customers to speak to their healthcare professional to get their Libre 2 sensor prescription changed to the Libre 2 Plus sensor.

It is important that
you dispense the
sensor exactly as per
the prescription.

The products are NOT
interchangeable.

Images are for illustrative purposes only. Not real patient.

1. Glucose readings are automatically displayed in the FreeStyle LibreLink app only when your smartphone and sensor are connected and in range. 2. The FreeStyle LibreLink app is only compatible with certain mobile devices and operating systems. Please check the website for more information about device compatibility before using the app. Use of FreeStyle LibreLink may require registration with LibreView. 3. Notifications will only be received when alarms are turned on and the sensor is within 6 meters (20 ft) unobstructed of the reading device.

FreeStyle Libre 2

IS IT THE CORRECT SENSOR?

The Libre 2 Plus sensor is the latest addition to the existing FreeStyle Libre portfolio. Customers may still be using the Libre 2 sensor or may have updated prescriptions for the Libre 2 Plus sensor.

CONNECTED CARE

The Libre 2 Plus sensor also has connectivity with Insulet's Omnipod® 5 Automated Insulin Delivery System¹ for those who are eligible for a hybrid closed loop system.

IT IS IMPORTANT THAT YOU DISPENSE THE SENSOR EXACTLY AS PER THE PRESCRIPTION.

The packaging is very similar for both sensors – **make sure you see the Libre 2 Plus logo.**

The Libre 2 product portfolio.

System	 	 
	Libre 2 Product Code: 7199401	Libre 2 Plus Product Code: 7874801
Sensor wear duration	14 days	15 days
Paediatric indication	4 years and older ²	2 years and older ²
